

independence

Our caregivers and therapists understand that family units are made stronger when each family member is empowered to reach independence.

Assisted Independence is committed to improving the health, wellness, and quality of life of those impacted by disability. We serve clients of all ages and abilities.

Private Payments Accepted.

Our mission is for our clients to live active and healthy lives at their homes and in their communities.

carefully matched

Our caregivers and therapists are carefully matched with clients who share similar interests and hobbies.

services

Community Based Habilitation - Individual

Services provided outside of the Participant's home that support learning and assistance in the areas of: self-care, sensory/motor development, socialization, daily living skills, communication, community living, and social skills. Community based activities are intended to build relationships and natural supports.

Participant Assistance and Care

Participant Assistance and Care (PAC) Services allow participants (consumers) with intellectual/developmental disabilities to remain and live successfully in their own homes, function and participate in their communities and avoid institutionalization. PAC services support and enable the participant in activities of daily living, self-care, and mobility with hands-on assistance, prompting, reminders, supervision and monitoring needed to ensure the health, safety and welfare of the participant.

Respite

Services provided to participant unable to care for themselves that are furnished on a short-term basis in order to provide temporary relief to those unpaid persons normally providing care. Respite Care can be provided in the participant's home or place of residence, in the respite caregiver's home, in a camp setting, in a DDRS approved day habilitation facility, or a non-private residential setting (such as a respite home).

Recreational Therapy

Medically approved recreational programs to restore, remediate, or rehabilitate an individual in order to improve the individuals functioning and independence; and reduce or eliminate the effects of an individual's disability.

managed caregivers

Our caregivers are managed by professional therapists, revolutionizing the organizational structure and delivery of home and community based services in Indiana.
