Direct Support Professional (DSP)

Core Competencies

A Collaborative Approach
for Improved Outcomes

Direct Support Professional (DSP) Initial and Annual Evaluation

How to Use This Evaluation Tool:

This performance evaluation tool is intended to be used to provide instructional feedback to direct support employees on their performance during their first 3 months related to the core competencies for direct support professionals or within the provider organization's probationary period. Individuals completing this tool should spend a reasonable portion of their time directly observing the Direct Support Professional (DSP) and the competencies being rated. Ratings should not be based on a single episode of an activity nor a single observation of an activity. This means that a direct supervisor or mentor would be the most likely person to complete the evaluation in a fair and accurate way. In addition, this tool can also be used by direct support employees to assess their own performance related to the core competencies for direct support professionals during their initial months of employment. Self assessment is considered a professional development activity in that it allows the Direct Support Professional (DSP) time to consider and reflect on his/her own strengths and weaknesses. Through honest consideration of one's own strengths and weaknesses, it is intended that the Direct Support Professional (DSP) could have recommendations for training or other methods for improving his/her skills. The self-assessment can also help the Direct Support Professional (DSP) to see how his/her own self-view may differ from those around him/her, and in doing so, help the Direct Support Professional (DSP) to become more aware of his/her impact on the work environment.

Ratings: The skills listed in this document should be demonstrated by the employee, at the level of "Meets the Skill Standard", by the end of the first year for a full time employee. A longer, pro-rated time period may be used for a part time or floating employee. It is important to place an "x" in the rating box. Please do not use a check mark or other symbol. There are 4 categories of ratings: "Meets the Skill Standard", "Making Progress", "Does Not Meet the Skill Standard", and "Not Applicable". The tasks included under each Skill are provided as examples and the Direct Support Professional (DSP) does not need to demonstrate all tasks in order to meet the skill standard.

Meets the Skill Standard: This rating indicates that the Direct Support Professional (DSP) demonstrates a good to very good level of competence in the skills of the Core Competencies. It also indicates the skill observed has been routinely and effectively performed in various presenting circumstances. Meeting the standard is a respectable achievement, not a bare minimum attainment.

Making Progress: This rating indicates that the Direct Support Professional (DSP) has not yet achieved the level of competence required by the standard in the Core Competencies or s/he is inconsistently demonstrating the skill level required. The observer believes the Direct Support Professional (DSP) will meet the standard given more practice and/or instruction on the skill.

Does Not Meet the Skill Standard: This rating indicates that the level of competence in the standard is not being met routinely, and in the observers opinion, little or no progress toward meeting the skill standard has been made to date.

Not Applicable: This rating indicates that the Direct Support Professional (DSP) has not had an opportunity to be shown, to practice or to demonstrate competence in the particular skill. The reasons for this may be that there is no person being supported who needs the skill in question, or the agency does not require the particular skill. If an "N/A" is awarded, the reason for it must be documented in the comments section for that competency area. **Note:** Areas with grayed out cells can not be awarded a rating of "N/A" as they are considered fundamental skills that all the Direct Support Professional (DSP)s must master.

Date of Hire: Agencies can determine whether to include employee's date of hire by the agency or the date that the employee was appointed to their current position.

Comments: This section is optional. Supervisors can choose to include additional comments if they think that additional information should be provided beyond the rating. However, supervisors must include comments if a blacked out "Not Applicable" box has been checked. To edit the comments section please double click in the comments section. If more space is needed for comments, then supervisors can manually expand the row height.

Example Tasks: Example Tasks have been provided for each skill area. They are designated as "a", "b", "c", etc. The tasks for Goals 1, 2, and 3 cannot be edited or changed. However, supervisors or HR staff can edit or change the example tasks included in Goals 4, 5, 6, and 7 to better describe the specific responsibilities of the DIRECT SUPPORT PROFESSIONAL (DSP) in a certain work setting. To edit tasks for Goals 4-7, click on the task to edit and change it. Additional rows can be added for new tasks and rows can be deleted for tasks that need to be removed.

Supervisor Summary Sheet: A numerical value will automatically appear in each appropriately marked box on the "Supervisor Summary" tab, that corresponds to the rating made in the evaluation standards sections. A number value will appear in the "Supervisor Summary" tab for each skill. In addition, averages will be calculated for each Goal and Competency Area. A total average score will be calculated at the end of the "Supervisor Summary" sheet. "Meets the Skill Standard" will receive a score of 1. "Making Progress" will receive a score

of 0.5. "Does Not Meet the Skill Standard" will receive a score of 0. "Not Applicable" will not be included in the calculation of the average score. This summary sheet is intended for the supervisor. Supervisors can determine whether or not to share the summary sheet with staff. The employee will receive a rating category on the "Narrative Summary", but the supervisor can decide whether or not to share the specific numerical ratings with their staff.

Delivering the Performance Evaluation: It is common practice to complete the rating form over a period of time prior to the face to face meeting with the employee. Allow discussion and questions during the review. The employee should be given a copy of the evaluation. The employee's signature on the final page of this document is in no way an indication of the employee's agreement with the assessment but rather it indicates that he/she has reviewed the document with his/her supervisor.
