Investment Information

The information below is provided to help you compare the Investment Choices under your Plan. If you want additional information about your Investment Choices, including principal risks, current investment performance and a glossary of terms, Transamerica participants may go to: transamerica.com/portal or call 1-800-401-8726. Total Annual Operating Expenses reduce the rate of return of each Investment Choice.

Table 1 below focuses on Investment Choices that do not have a fixed or stated rate of return, and shows fee and expense information, as well as investment performance for each choice and an appropriate benchmark performance (shown in *italics*). Past performance does not guarantee how the Investment Choice will perform in the future. Your investment in these choices could lose money.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor’s website for an example showing the long-term effect of fees and expenses at [A Look at 401\(k\) Plan Fees \(dol.gov\)](#).

Fees and expenses are only one of many factors to consider when you decide to invest. You may also want to think about whether investing in a particular Investment Choice will help you achieve your financial goals.
