27. Eligibility And ICF/ID-DD Level Of Care Determination For Developmental Disability Services

27.1. It is the responsibility of the Bureau of Disability Services (BDS) to determine Eligibility for services under the State definition of developmental disability (Eligibility) and Intermediate Care for the Intellectually Disabled and Developmentally Disabled (ICF/ID-DD) Level of Care (LOC) for services for persons with a developmental disability using the state and federal criteria. It is the policy of Bureau of Disability Services (BDS) to assure that criteria are uniformly applied in the process of Eligibility and ICF/ID-DD LOC determination. To be considered eligible for services for persons with a developmental disability, it must be determined that the individual has a severe,

chronic disability as defined in IC 12-7-2-61(a), and that the individual meets the standards for ICF/ID-DD LOC defined in 42 CFR §435.1009.

27.2. DETAILED POLICY STATEMENT

- 27.2.1. 1. Application packets for services may be obtained or requested from local BDS offices.
- 27.2.2. 2. Individuals must gather any collateral information required for Eligibility and ICF/ID-DD LOC determination that they may have in their possession or are able to secure on their own. Collateral must be returned with the completed application or brought to the meeting with BDS staff. Individuals must also apply for Indiana Medicaid and be Indiana Medicaid eligible to receive services.
- 27.2.3. 3. Information needed to determine Eligibility and ICF/ID-DD may include, but is not limited to:
 - 27.2.3.1. a. a psychological assessment that provides a current and valid description of the individual's intellectual functioning;
 - 27.2.3.2. b. sufficient information regarding the individual's adaptive/functional capacity;
 - 27.2.3.3. c. Individualized Education Program and educational case notes; and
 - 27.2.3.4. d. information to determine age of onset of the eligible condition.
- 27.2.4. 4. In situations where collateral is unavailable or insufficient to determine Eligibility and ICF/IDDD LOC, Bureau of Disability Services (BDS) shall authorize assessments as determined appropriate by the Bureau of Disability Services (BDS) District Manager.
- 27.2.5. 5. Bureau of Disability Services (BDS) staff will conduct an interview with the applicant, family, and/or legal representative, as appropriate, and Bureau of Disability Services (BDS) staff will discuss service options.
- 27.2.6. 6. Bureau of Disability Services (BDS) shall first identify the presence of a mental impairment or physical impairment (other than a sole diagnosis of mental illness) as diagnosed by a physician, psychologist, or psychiatrist which shall be noted on the 450b confirmation of diagnosis form. Mental and physical impairments may include, but are not limited to, diagnoses such as:
 - 27.2.6.1. a. mental retardation;

 - 27.2.6.5. e. Autism Spectrum Disorder; and
 - 27.2.6.6. f. other neurological brain disorders including Traumatic Brain Injuries. Note: Substantial deficits in functional behavior must be

clinically judged to be indicative of a condition similar to that of an intellectual disability and not primarily attributable to mental illness. The presence of mental illness can exacerbate the functional limitations of a person with a developmental disability.

- 27.2.7. 7. BDS shall identify that the age of onset of the impairment is prior to age twenty-two (22).
- 27.2.8. 8. The impairment must be expected to continue without a foreseeable end. For example, if the impairment has a discrete, identifiable course of action (such as orthopedic injury, disease, or condition secondary to an injury), the expected duration would not be considered indefinite, and this criteria shall not be considered to be met.
- 27.2.9. 9. BDS shall review all collateral and determine whether substantial functional limitations are present in three (3) of the following areas of major life activity:
- 27.2.9.1. a. self-care;
 - 27.2.9.2. b. understanding and use of language;
 - 27.2.9.3. c. learning;
 - 27.2.9.4. d. mobility;
 - 27.2.9.5. e. self-direction;

State funded services are subject to the availability of State funds.
- 27.2.11. 11. Bureau of Disability Services (BDS) shall provide a copy of the determination letter to the individual and/or the individual's legal representative. This also includes appeal rights and information should the individual wish to appeal the decision.
- 27.2.12. 12. Individuals who have been determined eligible under the State definition of developmental disability but who do not meet ICF/ID-DD LOC may not be placed on the waiting list for the Developmental Disability, Autism, or Support Services waivers or referred for supervised group living.
13. ICF/ID-DD LOC and Eligibility are reviewed annually.

- 28. **Guidance** – HCBS in hospital settings Date: August 4, 2020 In accordance with the recent amendment to Section 1902(h) of the Social Security Act (42 U.S.C. 1396a(h)), states’ Medicaid programs are permitted to provide home-and communitybased services to individuals in acute care hospitals. The Bureau of Disability Services has developed the following guidance for the delivery of HCBS (i.e., Family Support Waiver and the Community Integration Habilitation Waiver) in acute care hospitals. This guidance is only applicable for individuals receiving BDS waiver services who are seeking or receiving treatment in an acute care hospital setting for inpatient medical care or other related services for surgery, acute medical conditions, or injuries. This guidance does not pertain to individuals who require long term care in a facility-based setting including but not limited to nursing homes, rehabilitation centers and/or treatment facilities.
- 28.1. Individuals may receive home and community-based services (HCBS) from their direct support professional or other support staff like behavior

- management or music therapy provider while receiving medical care and treatment in an acute care hospital so long as the following conditions exist:
- 28.1.1. the waiver service is accurately documented in the Person-Centered Individualized Support Plan (PCISP);
 - 28.1.2. the waiver service provided meets the need(s) of the individual that are not met through the provision of hospital services; and
 - 28.1.3. the waiver service is being provided to ensure a smooth transition between the acute care settings and home and community-based setting and preserve the individual's functional abilities. The home and community-based services (HCBS) provided by the direct support professional or other support staff such as behavior management or music therapy provider may not be utilized as a substitute for services that the hospital is obligated to provide through its conditions, requirements and expectations under any participation, licensing, professional partnership agreement(s) as well as local, state and/or federal laws.
- 28.2. Case managers are required to document in the case notes when an individual receives acute medical care. The case manager must ensure the waiver service is identified in the PCISP and the following must be included in the case note:

If the individual needs HCBS services to support them during an acute hospital stay, the case manager will update the individual's plan within waiver rules and service limitations. Parent(s) and legal guardians of adults who are employed as the individual's direct support professional may continue to provide the waiver service while the individual is receiving care and treatment in the acute care hospital setting up to and including the current approved number of hours that exists with the current service plan at the time of hospitalization. Individuals receiving services on the CIH waiver who may need additional supports while receiving care in an acute care hospital setting may submit a budget modification request that documents the need for increased supports, the anticipated length of temporary supports needed, and the availability of staff to provide the support. All FSW and CIH waiver rules and service limitations still apply (i.e. 40 hour rule, incident reporting guidelines, etc.).

34. Risk Management

- 34.1. Risk management is a dynamic process of identifying risk and selecting techniques to address that risk. Assisted Independence, LLC.'s Compliance Coordination Policy Manual is the primary resource used to define the expectations or position on a matter and authorizes appropriate action that must or may be taken to establish and/or maintain those expectations.
- 34.2. The goal of Assisted Independence, LLC.'s Risk Management Plan is to "Promote Quality Supports and Manage Risk Effectively". Assisted Independence, LLC. is to protect itself against accidental loss or losses which would significantly affect agency personnel, property, its budget, or its ability to continue to fulfill its responsibilities.
- 34.3. It is policy of Assisted Independence, LLC. for every personnel to act to reduce the risk of accidental loss or injury to the greatest extent feasible, consistent with carrying out Assisted Independence, LLC.'s mission of helping individuals live active and healthy lives at their home and in their communities.
- 34.4. Risk management includes actions taken before and after a loss occurs and is directed towards reducing risks and reducing the frequency and severity of losses. When analyzing a loss exposure and its treatment, the impact on the entire agency, as well as on individual departments, is evaluated.

- 34.5. Assisted Independence, LLC. faces many risks in the course of its daily operations. Most fall into one of the following categories:
- 34.5.1. General Liability
 - 34.5.1.1. General liability refers to the amount of loss payable to others outside the organization for injury or damage arising from operations. It applies to personal injury, bodily injury and property loss or damage to a third party resulting from the negligence of the program operations or the employees.
 - 34.5.2. Professional Liability (Including Directors and Officers coverage)
 - 34.5.2.1. Claims are most prevalent in the areas of hiring, treatment, and termination of employees. In terms of Directors and Officers liability, consumers and guardians rightfully expect a high level of character, professionalism, and ethical conduct. Directors and Officers must exercise reasonable care and diligence in carrying out their tasks. Negligence in fiscal management is the most common target of Directors and Officers liability claims. Failure to comply with the Americans with Disabilities Act (ADA) opens yet another arena for possible liability exposure.
 - 34.5.3. Liability to Employees
 - 34.5.3.1. Assisted Independence, LLC.'s liability to its employees includes compensation for job-related accidents or occupational illnesses. Three types of loss exposure are workers' compensation claims, employer liability claims, and non-compliance with applicable occupational safety and health regulations.
 - 34.5.4. Property Loss
 - 34.5.4.1. Physical property at risk includes real and personal property, whether owned or leased. The loss may result from fire, accident or theft. Property may be destroyed, damaged or lost. The organization may also experience an interruption in normal operations.
 - 34.5.5. Vehicle-related Loss
 - 34.5.5.1. Risks include property damage to the vehicle itself, in addition to liability claims for personal injury and property damage as a result of vehicle operation. The specific types of liability are numerous and run the gamut from minor fender benders to loss of life.
 - 34.5.6. Contractual Liability
 - 34.5.6.1. When risk is contractually transferred from one party to another, loss exposures can be increased or decreased. Contractual liabilities can arise out of leases, rental agreements, special service agreements, joint use agreements, cooperative ventures, construction contracts, service contracts with municipalities and contractual labor.

- 34.5.7. Business Loss / Interruption
 - 34.5.7.1. Loss or reductions of funding and major losses of facilities all create risk.
- 34.5.8. Loss of Reputation
 - 34.5.8.1. Loss of Reputation could result from negative publicity arising from negligent or unethical behavior of employee and/or organization.
 - 34.5.8.1.1. The President of Assisted Independence, LLC. is the only authorized individual to make statements to any media whatsoever.
- 34.6. Assisted Independence, LLC. will adopt these methods in order to manage risk:

 - 34.6.2. It is the responsibility of each department and its personnel to conduct the business of the company in such a way as to reduce or prevent hazards to individuals and property and to evaluate the risk cost potential when developing new programs.
 - 34.6.3. Risk Retention - It is general policy of Assisted Independence, LLC. to retain the financial responsibility for its risks of accidental loss to the maximum extent possible without jeopardizing the financial position of the company or the continuation of essential programs.
 - 34.6.4. Risk Transfer - The financial responsibility for risks may be transferred to others through contractual agreements or through the purchase of insurance. 72. Clarifying Provider Expectations in Following an Individual's Designated Preferences for Cardiopulmonary Resuscitation (CPR)

- 72.1. Individuals receiving home- and community-based services (HCBS) waiver services have the right to exercise self-determination and choice in their preferences for receipt of life-saving measures. This guidance document provides clarification to providers on existing requirements regarding Cardiopulmonary Resuscitation (CPR) training of staff and expectations for respecting individual choice in the receipt of life-saving measures.
- 72.2. Current Provider Requirements on CPR Training
 - 72.2.1. Under 460 IAC 6-15-2(b)(2)5 and 455 IAC 2-14-1(b)(4)6, BDS-enrolled providers must maintain records verifying that their personnel working with individuals have received up-to-date training on CPR techniques and possess a current certification from a recognized CPR certification entity.
 - 72.2.2. This regulatory requirement applies to any personnel working with or providing direct care to individuals. In practice, this means:
 - 72.2.2.1. CPR training requirements are not limited to personnel designated by a provider as "direct care staff", "direct support professionals", or any other similarly constructed designation.
 - 72.2.2.2. The application of this requirement is not dependent on a provider's internal employee classification or job title structure.
 - 72.2.2.3. All personnel that work with or provide direct care to individuals must have up-to-date CPR training on file before rendering services directly to an individual

- 72.2.2.4. Providers should establish internal policies and procedures to ensure any and all personnel that will provide services directly to an individual have up-to-date CPR training and that this training is reflected in personnel records.
- 72.3. Provider Expectations in Rendering CPR
 - 72.3.1. As required by 460 IAC 6-15-2(b)(2) and 455 IAC 2-14-1(b)(4), a provider must maintain records that verify all personnel working with or providing direct care to an individual have up-to-date training on CPR techniques and possess a valid certificate of completion from an approved entity.
 - 72.3.2. Since all personnel working directly with an individual are required to have up-to-date CPR training, personnel have the training necessary to render CPR to an individual in an emergent situation.
 - 72.3.3. BDS expects personnel to render CPR to any individual in need of resuscitation unless:
 - 72.3.3.1. The individual has a valid designation indicating their preference that CPR not be rendered as a life-saving measure documented in their service plan, and
 - 72.3.3.2. The provider has informed personnel working with that individual of the individual's designated preference that CPR not be rendered as a life-saving measure.
 - 72.3.4. In practice, this means that providers should have policies and processes in place to ensure the provider personnel working with the individual are timely informed of an individual's designated preferences for life-saving measures.
- 72.4. Documenting an Individual's Designated Preference for Life-Saving Measures
 - 72.4.1. As provided for in state law, an individual may designate their preferences for life-saving measures through one of the following methods:
 - 72.4.1.1. An Out of Hospital Do Not Resuscitate (DNR) declaration that follows the format⁷ of state form SF 49559 and is completed in accordance with IC 16-36-5,
 - 72.4.1.2. A Physician Orders for Scope of Treatment (POST) form documented on state form SF 55317 and completed in accordance with IC 16-36-6, or
 - 72.4.1.3. An Advance Directive that includes a valid DNR or POST document.
 - 72.4.2. A copy of the designation should be provided to all members of the individual's Individualized Support Team (IST), including but not limited to:

- 72.4.2.1. the individual's Home and Community Based Services (HCBS) waiver case manager;
- 72.4.2.2. the individual's Home and Community Based Services (HCBS) waiver service providers;
- 72.4.2.3. providers of nonwaiver services as desired by the individual,
- 72.4.2.4. health care coordination provider;
- 72.4.2.5. primary care provider;
- 72.4.2.6. medical specialists providing care or services.
- 72.4.3. Please refer to the Appendices for more detailed information on DNR and POST designations.
- 72.5. Individual Preferences Regarding Life-Saving Care
 - 72.5.1. All individuals receiving Bureau of Disability Services (BDS) - administered Home and Community Based Services (HCBS) waiver services must be allowed to exercise their right to designate their preferences regarding life-saving measures, including their preferences for the receipt of CPR.
 - 72.5.2. It is important to note the following:
 - 72.5.2.1. All valid DNR and POST designations are voluntary and reflect personal choice.
 - 72.5.2.2. Individuals have the right to cancel or amend these designations at any time, should they choose to do so.
 - 72.5.2.3. When an individual cancels or amends a designation on life-saving measures, the individual (or their legal representative) must provide all members of the individual's Individualized Support Team (IST) with written documentation of changes to their designation so that the individual's current designated preferences can be documented in the service plan.
 - 72.5.2.3.1. The individual may provide this written documentation in physical or electronic format and may request assistance from the case manager to distribute the current designated preferences to the other members of the Individualized Support Team (IST).
- 72.6. Refer to State Form 55317 (R6/ 6-23) and State Form 49559 (R / 9-11)
